Annual Report 2011 - 2012

The year 2011-2012 represents a milestone in our activities as we transit and prepare ourselves for intensive grassroots activities to selected blocks and villages in five districts and technical and support services to development efforts in other places.

In earlier years our activities spread across 14 districts, 84 blocks 479 village panchayats directly impacting the lives of nearly 3 million people. The earlier activities were mainly in the area of watershed development and community organization. We note with satisfaction the continuing good work in these 14 districts by the staff members deputed by us to the Government programmes. The 645 SHGs formed by us benefiting 14,000 members function independently and our role in forming them and helping them function independently gives us immense satisfaction and a sense of achievement.

As we decided in 2011, we are moving on to two types of activities, Intensive grassroots activities in selected villages and Technical and support services to development activities wherever needed.

Now we have decided to work intensively among the communities on specific issues affecting them. We have selected Dindigul, Karur, Pudukottai, Tirunelveli, Tiruchirappali and Kancheepuram districts for such intensive community development work including, Livelihood, women development, micro credit, health care, sanitation, environment, agriculture, HIV/AIDS and other activities addressing specific local problems for the next 10 years.

Though we have reached a turnover of over 10 million rupees, we have so far worked only on the basis of contracts and billing with government departments and with support from local communities. From this year onwards we have decided to seek funds and partnerships with funding sources outside the Tamil Nadu government based on the suggestions from the committee members and the advisory board members.

I thank all the staff members, community leaders, retired and current government officials, committee members and the advisory board members for their continued overwhelming support for the yet another thoughtful and eventful year.

Warm Regards

S.Jagadeesan

Director

Organisational Structure

COODU Trust has a rather flat organizational structure with the Founder Director in-charge of the overall functioning of the Trust and answerable to the Board of Trustees that meet periodically to assess and chalk the future strategy of the organization with the able guidance from the advisory board. There are mainly four key divisions - project Division with staff structure in all districts, Training Division under taking programme training as well as skill - based vocational and entrepreneurship training. The administrative division manages personnel and overall project coordination at headquarters. The IT and audio-visual division undertakes documentation and creates audio-visual materials, CD presentation etc. for Coodu Trust.

Organization Structure

Vision

“Creating an egalitarian, self-reliant society by adopting latest and appropriate technologies sustained through participatory community efforts”

Mission

The Mission of Coodu Trust is to create an egalitarian society thereby reducing disparity between classes through a gender-based and human rights approach. It seeks to create a self-reliant society by harnessing use of Information Technology enhancing productivity, speed, accountability and thereby overall efficiency in project management. It also seeks to build relationships within communities by adopting participatory methods, ensuring that the benefits of development reach 'the disadvantaged and marginalized'.

3	Karur District, Vellianai	50 Acres Agriculture Land
4	Tirunelveli, Moondradaippu	2500 sq.ft Building of Training Hall with Accommodation facility & 6 Acres Agriculture land

Genesis and Growth

Coodu Trust emerged in year 2000 based on the motivation of a few young and dynamic like minded persons and professionals who pledged to do efficient, constructive and everlasting social development work for the under privileged of the society to develop self sufficient and self reliant communities. The name 'Coodu' signifies 'Nest' - a place of rest, comfort and security for those in search of the same. Coodu trust is a not for profit voluntary organization to under take charitable, educational and development activities for the welfare of downtrodden and marginalized needy people of society, including of fourteen districts of Tamil Nadu on watershed programmes and all the thirty districts for various social development work.

Over the years Coodu Trust emerged as one of the leading NGO in watershed development activities in Tamil Nadu especially on community organization and training programmes and research and documentation on various rural development issues. However we have decided in year 2006, to move on to two types of activities, Intensive grassroots activities in selected villages and districts and Technical and support services to development activities wherever needed. We have decided to work intensively among the communities on specific issues affecting them. We have selected Dindigul, Karur, Tirunelveli, Tiruchirappali and Kancheepuram districts for such intensive community development work including, Livelihood, women development, micro credit, health care, sanitation, environment, agriculture, HIV/AIDS and other activities addressing specific local problems for the following years.

The following years are going to be very challenging to create opportunities on specific issues to serve the communities with intensive grassroots activities on diversified development issues.

Activities for the Year 2011-12
